Retford Action Centre – increasing resource centre capacity and accessibility

Grant award: £30,000

Retford Action Centre used its Capital Investment Programme grant to provide increased facilities and resources for the local community and voluntary sector organisations. By upgrading their existing facilities and recently acquired premises, they are now able to offer improved services to a wide range of local charities and voluntary groups.

Lynn Tupling Chief Executive of Retford Action Centre said: *“The new premises are wonderful! They are fully accessible, warm and bright – it is a real pleasure to come into this building. The extra space we now have means that more community groups are able to use our facilities.”*
